# INTRODUCTION

## ABOUT MISRCONSULT

An expert firm with a multidisciplinary highly dynamic architectural and engineering firm with a track record of meeting surpassing clients expectations

Misrconsult is a limited liability engineering firm founded in 1992 in Cairo. It is owned by experienced Saudi and Egyptian professionals, including partners from Saudconsult, one of the largest A/E firms in the Middle East. Both companies collaborate to provide high-quality engineering services on time and within budget.

# OUR CLIENTS

Certified & Compliant with International Standards

Trusted by  
Leading Clients

## OUR MISSION

We provide high-quality engineering services that meet project needs.  
We follow global standards to ensure accuracy and reliability.  
We focus on practical, efficient, and cost-effective solutions.  
Our mission is to achieve client satisfaction through professional delivery.

## OUR VISION

To maintain our position as a trusted engineering consulting firm.  
We aim to grow through quality-driven and client-focused services.  
We focus on efficiency, innovation, and professional standards.  
Our vision is to build long-term value and strong partnerships.

## OUR PRINCIPLES

We follow professional and quality standards.  
We work with integrity and transparency.  
We apply sound engineering practices.  
Client satisfaction guides our work.

# MEET OUR MANAGEMENT

***ENG. Khaled Abdelmonem***  
*Executive Manager* \_\_\_\_\_

***MR. Mohamed Hassan***  
*Financial & Administrative Manager* \_\_\_\_\_

## **ENG. Ahmed Galal**

*BIM Manager*

BIM Manager with **over a decade** of experience in architecture and digital construction, specializing in BIM implementation, multidisciplinary coordination, and model management aligned with ISO 19650 standards. He holds a B.Sc. in Architecture from Helwan University with Urban Design studies at Cairo University. Ahmed has extensive experience leading BIM teams and delivering LOD 500-100 models for large-scale residential, commercial, and industrial projects through efficient BIM workflows and team development.

## **ENG. Mohamed Fathy**

*Quality Manager*

Quality Manager & Electrical Team Leader with **22+ years** of experience in electrical design, coordination, and management of MV/LV distribution systems for large-scale residential, commercial, hospitality, healthcare, and infrastructure projects. B.Sc. Electrical Power Engineering – Helwan University, certified Electrical Installation, Consultant Engineer. Extensive experience in design, supervision, and project coordination across Egypt, KSA, and Qatar.

## **ARCHITECTURAL**

## **ENG. Mohamed-Reda Sleem**

*Head Of Life Safety Department*

Principal Engineer / Project Manager with **45+ years** of experience in engineering design, life safety study codes and analysis through international codes, construction supervision, and project management. Contributed to **50+ major projects** including universities, hospitals, residential compounds, resorts, and government facilities across Egypt and KSA (Aramco & Royal commission projects). Holds B.Sc. Engineering – Zagazig University with extensive experience in international codes and multidisciplinary coordination.

## **ENG. Mostafa Souliman**

*Head Of Department & Projects Manager*

Head of Architecture Department / Projects Manager with **43+ years** of experience in architectural design and project management, contributing to **40+ large-scale projects** across residential, educational, healthcare, and government developments in Egypt and KSA.

## ARCHITECTURAL

### **ENG. Mohamed Nabil**

*Project Manager & Team Leader*

Senior Architectural Engineer with **30+ years** of experience in architectural design, project coordination, and QA/QC across large-scale developments. Contributed to **50+ projects** including universities, hospitals, residential compounds, government and commercial facilities across Egypt and KSA. Holds M.Sc. in Town Planning and B.Arch – Cairo University.

### **ENG. Eman Adel**

*Project Manager & Team Leader*

Project Manager & Architectural Team Leader with **30+ years** of experience in architectural design and coordination, contributing to **35+ projects** across residential, educational, hospitality, and sports sectors in Egypt and KSA. A Consultant Engineer holds a Master Degree Arch - Cairo University (2007), LEED Green Associate certification (April 2024), and a Professional Program in Project Management – PRMG, AUC (2000).

### **ENG. Hesham Al-Abady**

*Project Manager & Team Leader*

Project Manager & Architectural Team Leader with **25+ years** of experience in architectural design, working drawings, and multidisciplinary coordination. Contributed to **35+ projects**, including residential compounds, universities, hotels, resorts, commercial developments, and infrastructure projects across Egypt, KSA, Kuwait, and Qatar.

### **ENG. Magued Boshra**

*Team Leader*

Senior Architect and projects manager with **33+ years** of experience in architectural design and multidisciplinary coordination, contributing to **40+ projects** including hospitals, universities, residential, and hospitality developments across Egypt and KSA, with specialization in healthcare facilities design.

## STRUCTURAL TEAM

---

### **ENG. Mohamed-Hamdy Darwish**

*Head Of Department*

Head of Structural Department with **40+ years** of experience in structural design, analysis, and QA/QC for bridges, buildings, and infrastructure projects. Contributed to **50+ major** projects including residential compounds, universities, hospitals, and transportation structures across Egypt, KSA, and the Gulf region. Holds B.Sc. Engineering – Cairo University and certified consultant in concrete structural design.

### **ENG. Ayman Hashim**

*Team Leader*

Structural Engineer with **28+ years** of experience in structural design, analysis, and construction supervision using ETABS, SAFE, SAP, and STAAD. Contributed to **30+ projects** including residential compounds, universities, hospitals, hotels, and infrastructure developments across Egypt, KSA, Qatar, and the Gulf region.

## HVAC

### **ENG. Amr Lashin**

#### *Head Of Department*

Senior HVAC Consultant with 25+ years of experience in HVAC design, system selection, technical consultancy, and construction supervision. Led and contributed to 30+ major projects, including residential compounds, universities, hospitals, hotels, and commercial developments across Egypt, KSA, and the Middle East. Scope of expertise includes feasibility studies, system selection and comparison (technical and commercial evaluation), sustainability verification, and value engineering to ensure optimal performance and lifecycle cost efficiency.

### **ENG. Mohamed Helmy**

#### *Team Leader*

HVAC Team Leader with 15+ years of experience in HVAC design and project coordination across residential, commercial, and institutional projects in Egypt and KSA. Holds B.Sc. Mechanical Engineering – Cairo University, PMP®, and PMI-RMP® certifications.

### **ENG. Alaa Hatim**

#### *Senior HVAC*

HVAC Design Engineer with 11+ years of experience in HVAC systems design for residential, commercial, healthcare, and educational projects. B.Sc. Mechanical Engineering – Menoufia University. Experienced in chilled water, DX, VAV/CAV, and ventilation systems across projects in Egypt, KSA, and Qatar.

## WET UTILITIES (INFRASTRUCTURE)

**ENG. Abbas Ahmed**

*Head Of Department*

Head of Wet Utilities & Infrastructure Department with **40+ years** of experience in infrastructure and sanitary engineering including wet utilities of domestic/fire water supply, wastewater, storm drainage and treatment plants of water/sewage for local/ aboard large-scale projects in Egypt and KSA. MSc Hydraulic & Environmental Engineering (Netherlands), MBA S.N. 0010791 and B.Sc. Civil Engineering – Ain Shams University. Led design and supervision of major infrastructure and development projects for universities, residential compounds, hotels and government facilities.

**ENG. Noha Mahrous**

*Team Leader*

Infrastructure Team Leader with **18+ years** of experience in wet utilities, hydraulic analysis, and infrastructure design for major projects in Egypt and KSA. B.Sc. Civil Engineering – Alexandria University and PMP® certified, with experience in project management, design review, and technical coordination.

**ENG. Mohamed Abd El-Fattah**

*Senior Wet Utilities*

Senior Wet Utilities / Hydraulic Engineer with **12+ years** of experience in the design of water, wastewater, Main irrigation, storm networks, transmission lines, B.Sc. Civil Engineering – Helwan University. Experienced in large infrastructure projects across Egypt and KSA.

## PLUMBING AND FIRE FIGHTING

---

### **ENG. Hamdy Seleem**

#### *Head Of Department*

---

Head of Plumbing & Firefighting with **35+ years** of experience in plumbing, fire protection, medical gases & utilities design for large scale projects. B.Sc. Engineering – Cairo University, certified Plumbing Consultant Engineer, with expertise in coordination, supervision, and BIM/MEP design tools. Extensive project experience across Egypt, KSA, Qatar, and the Middle East.

### **ENG. Mohamed Adly**

#### *Team Leader*

---

Plumbing & Fire Protection Team Leader with **20+ years** of experience in design of plumbing and fire suppression systems for large-scale residential, commercial, and institutional projects. B.Sc. Civil Engineering – Ain Shams University, member of the Egyptian Syndicate of Engineers. Extensive project experience across Egypt and KSA.

### **ENG. Hani Samir**

#### *Senior Plumbing*

---

Senior Plumbing & Firefighting Engineer with **15+ years** of experience in design of plumbing, hydronic, and fire protection systems for large-scale projects. B.Sc. Mechatronics Engineering – AASTMT. Experienced in major residential and mixed-use developments across Egypt and KSA.

## ELECTRICAL

### **ENG. Ibrahim Lotfy**

#### *H.O.D & Project Manager*

Senior Electrical Engineer with **22+ years** of experience in electrical design, coordination, and management of MV/LV distribution systems for large-scale residential, commercial, healthcare, and infrastructure projects. B.Sc. Electrical Power Engineering – Helwan University, certified Electrical Installation Consultant Engineer. Extensive experience in design, supervision, and project coordination across Egypt and KSA.

### **ENG. Mohamed Eid**

#### *Team Leader*

Electrical Engineer team leader with **25+ years** of experience in design and supervision of MV/LV electrical systems, lighting, power supply, grounding, and infrastructure networks for large-scale residential, commercial, and infrastructure projects. B.Sc. Electrical Power Engineering – Helwan University, member of the Egyptian Syndicate of Engineers. Extensive project experience across Egypt, KSA, Qatar, and the Middle East.

### **ENG. Omnia Mamdouh**

#### *Senior Electrical*

Senior Electrical Design Engineer with **14+ years** of experience in electrical systems design and team leadership across residential, commercial, and infrastructure projects. B.Sc. Electrical Power Engineering – Helwan University. Skilled in power distribution, lighting, low current systems, and project coordination in Egypt and KSA.

## TELECOM

### **ENG. Khaled El-Sayed**

#### *Head Of Department*

Head of Telecom Department with **32+ years** of experience in design and supervision of IT and security systems for large-scale residential, commercial, healthcare, and infrastructure projects. B.Sc. Electronics & Communication Engineering – Menofia University. Extensive expertise in FTTx networks, CCTV, access control, fire alarm, and integrated building systems across major projects in Egypt and KSA.

### **ENG. Mahmoud Abd El-Aziz**

#### *Team Leader*

Telecom & Low Current Systems Team Leader with **15+ years** of experience in design and coordination of integrated ELV solutions across Egypt and KSA. Expertise includes SCS, data/telecom networks, FTTx infrastructure, PA/VA, CCTV, access control, BMS, and fire alarm systems in compliance with international standards. B.Sc. in Communications & Electronics Engineering, Helwan University.

### **ENG. Ahmed Shawki**

#### *Senior Telecom*

Telecom & Low Current Engineer with **23+ years** of experience in design and supervision of IT and low current systems including CCTV, fire alarm, access control, PA, and BMS for large-scale residential, commercial, and infrastructure projects. B.Sc. Electronics & Communication Engineering – Menoufia University. Extensive experience in major projects across Egypt, KSA, and Qatar.

## ROADS

---

### **ENG. Sara Shereef**

*Head Of Department* \_\_\_\_\_

Principal Roads & Highways Engineer with **25+ years** of experience in road and infrastructure design including highways, geometric design, grading, drainage, and road safety. B.Sc. Civil Engineering – Ain Shams University, with experience in major projects across Egypt and KSA including residential developments, universities, and infrastructure works.

## TENDERS & QS

---

### **ENG. Reham Ra'afat**

*Head Of Department* \_\_\_\_\_

Head of Tender & QS with **20+ years** of expertise in tender management ,procurement lifecycle, contract administration, cost estimation, and preparation of tendering and construction documentation for large-scale projects. B.Sc. Civil Engineering – Helwan University, PMP®, PRMG, and CAPM certified. Extensive experience in major projects across Egypt, KSA, and internationally.

### **ENG. Mostafa Mahmoud**

*Team Leader* \_\_\_\_\_

Tenders & QS Team Leader with **15+ years** of experience in quantity surveying, cost estimation, tender documentation, and claims analysis for large-scale projects. B.Sc. Mining & Petroleum Engineering – Al-Azhar University. Experienced in major developments across Egypt and KSA including EMAAR, Palm Hills, and mega infrastructure projects.

## Architectural Design

Creative and functional architectural solutions aligned with client needs

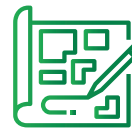

## Structural Engineering

Safe, efficient, and code-compliant structural design systems

## MEP Engineering

Integrated mechanical, electrical and plumbing solutions

## Urban & Master Planning

Sustainable planning solutions for large-scale developments

## Life Safety

Fire alarm, firefighting, and emergency systems to protect lives and property

## Wet Utilities

Water supply, drainage, and plumbing systems for efficient building operation and saving Energy solutions

## Project Management

End-to-end project coordination ensuring time and budget control

## Engineering Consultancy

Professional engineering consultancy supporting design, planning and execution stages
